in Our Mind

Objective

The course objective is to give the necessary theoretical knowledge and practical skills to safely and efficiently operate the Airbus A330 series (A330-200/A330-300) aircraft.

Successful completion will provide the pilots with meet Airlines Standards to highest level.

Entry Requirements:

- Valid CPL (ATPL theory) or ATPL;
- MCC certificate;
- 100 hours as pilot in command of airplanes;
- Valid ME, IR (multi-engine, instrument rating);
- Valid Class 1 Medical Certificate;
- ICAO English level 4.

Note: The A330 Type Rating Course is available as integrated MCC + Type Rating Course for those who don't hold an MCC.

Ground Training

- Aircraft Systems through computer based training;
- Flight Training device (FTD);
- Performance and mass and balance;
- Crew Resource Management;
